

Self-Priming Oil Transfer Pump with Flow Meter

Self-priming oil transfer pump designed for use with various types of oils. It features an integrated flow meter for accurate dispensing and includes suction and delivery hoses for easy setup.

Product Overview

Professional Oil Transfer Solution

This self-priming oil transfer pump is engineered for efficient fluid management in industrial and agricultural settings. Equipped with an integrated flow meter, it ensures high-precision dispensing for varied oil types. The unit comes complete with suction and delivery hoses, providing a ready-to-use solution for demanding operational environments.

Key Features

Key Capabilities

- Self-priming functionality
- Integrated flow meter for accurate dispensing
- Compatible with multiple oil types
- Includes suction and delivery hoses
- Durable construction for long-term use

Compliance & Usage

Applicable Sectors

Industrial, Agricultural
