

Self-Priming Water Transfer Pump

This self-priming water pump is designed for efficient water transfer and pressure boosting. The pump features a durable construction with clearly labeled inlet and outlet ports for easy installation.

Product Overview

High-Efficiency Water Transfer Solution

This self-priming water transfer pump is engineered for reliable performance in demanding fluid handling applications. Featuring a robust, durable construction, it is designed for ease of use with clearly marked inlet and outlet ports for rapid installation. Its portable design, enhanced by an integrated handle and efficient ventilation system, makes it an ideal choice for pressure boosting and general water transfer tasks.

| Pump Type | Self-Priming |
| Primary Applications | Water Transfer, Pressure Boosting |

Design & Build

Key Features

- Integrated carrying handle
- Optimized ventilation system
- Clearly labeled inlet/outlet ports
- Durable construction
