Overview

Versatile design ideal for bedrooms, living rooms, offices, and meeting rooms.

Professional 7-Stage Air Purification

This advanced air purification system utilizes a comprehensive seven-stage filtration process, including True HEPA and UV sterilization, to ensure a healthier indoor environment. Designed for spaces up to 40 square meters, it effectively removes PM2.5, allergens, smoke, and volatile organic compounds. With a CADR of 280m³/h and smart sensor technology, it provides real-time air quality monitoring and automated performance for homes and offices.

Performance Metrics

Performance Metrics

280 m³/h

CADR

40 m²

Max Area

27 dB

Min Noise

Purification System

Comprehensive 5-in-1 system featuring HEPA, Activated Carbon, and UV sterilization.

7-Stage Filtration Process

- Washable Pre-filter
- Secondary Pre-filter
- True HEPA Filter
- Activated Carbon Filter
- Photocatalyst Filter
- UV Light Sterilization
- Negative Ion Generator

Target Pollutants

PM2.5, Smoke, Benzene, Dust, Formaldehyde, Bacteria, Viruses, Pollen, Pet Dander

Smart Features

Real-time PM2.5 monitoring with color-coded air quality indicators and intuitive touch controls.

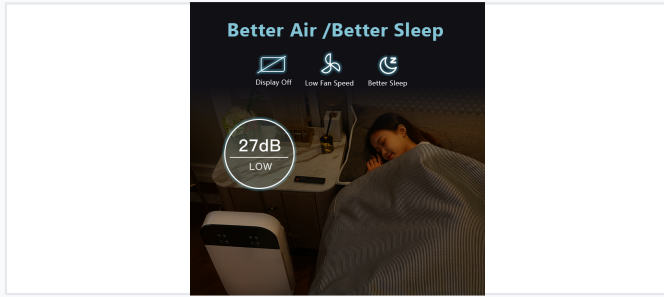

Integrated Sensors

- High-precision PM2.5 Sensor
- Dust Sensor
- Filter Life Monitor

AQI Visual Feedback

PM2.5 Range	Color Indicator	Air Quality Status
0-70	Green	Good
71-150	Yellow	Medium
151-300	Red	Poor

Operation & Control

Ultra-quiet operation at 27dB with display-off functionality for undisturbed sleep.

Convenient remote control allows for easy operation from across the room.

Operating Modes

- Auto Mode (Smart Adjustment)
- Sleep Mode (Ultra-Quiet)
- Normal Mode (4 Speed Settings)

Control Interfaces

Touch Screen, Remote Control, Digital Display

Timer Range

1-8 Hours (Adjustable)

Safety & Maintenance

Safety Systems

- Child Safety Lock
- Auto-Off Safety Function
- Filter Replacement Indicator

Filter Service Life

3000 Hours

Physical Specifications

Sleek, ergonomic design with a compact footprint suitable for any room.
