

Sewing Machine Foot Pedal Speed Controller

This sewing machine foot pedal speed controller regulates the motor's speed. It allows for precise speed adjustments during sewing operations and is compatible with various sewing machine models.

Product Overview

Precision Speed Control

This sewing machine foot pedal speed controller is designed for high-quality, reliable performance. It provides users with precise regulation of sewing machine motor speeds, ensuring smooth and consistent operation during various stitching tasks. The durable black housing and integrated cable system offer a robust solution for enhancing control and efficiency on compatible sewing machine models.

Technical Details

Key Features

- Variable speed control mechanism
- Durable black casing
- Integrated power cord with standard plug
- Universal compatibility
