

SFTP CAT7 Ethernet Cable

This SFTP CAT7 cable ensures reliable signal transmission at a competitive price point. It is designed for use in various market sectors.

Product Overview

High-Performance Data Transmission

This SFTP CAT7 Ethernet cable is engineered for high-speed, reliable data transmission in demanding network environments. Featuring advanced shielding, including individual foil wraps for each twisted pair and an overall braid, it effectively minimizes electromagnetic interference and crosstalk. Its robust construction ensures secure data transfer and long-lasting durability, making it an ideal choice for professional-grade networking applications.

Technical Specifications

Environment Suitability

- High electromagnetic interference environments
- Demanding network applications
- Secure data transmission setups

Cable Construction

SFTP (Shielded Foiled Twisted Pair)

Shielding Components

Individual Foil Shield, Overall Braid Shield

Key Benefits

Performance Advantages

1 High

Signal Interference Protection

1 Superior

Crosstalk Mitigation
