

Shaded Pole AC Motor for Ventilation

This shaded pole motor is designed for air conditioners and ventilation equipment. It operates on 220-240Vac at 50/60Hz with a power consumption of 26W.

Product Overview

Compact Ventilation Motor

This shaded pole AC motor offers a stable and simple structure designed for reliable, low-noise operation without electromagnetic interference. It is perfectly suited for light-load starting applications in various home and professional appliances. The unit supports customizable production to meet specific technical requirements and holds major international safety certifications.

Technical Specifications

Power Consumption

26 W

Power

Voltage & Frequency	220-240Vac at 50/60Hz
Insulation Class	CL.180

Compliance & Quality

Safety Certifications	UL, VDE, TUV, 3C
-----------------------	------------------

Applications

Suitable Appliances

- Portable air conditioners
- Refrigerators
- Humidifiers
- Ovens
- Heaters
- Exhaust fans
- Microwave ovens
- Medical equipment
