Product Overview

Professional Grade Aviation Snips

These 12-inch aviation snips are engineered for precision and efficiency in sheet metal fabrication. Featuring forged alloy steel blades and a compound lever mechanism, they deliver high cutting power with minimal hand fatigue. Designed for versatility, this tool is an essential asset for HVAC, roofing, and general metalworking applications.

Technical Specifications

Tool Length	12 inches
Steel Cutting Capacity	18-gauge
Stainless Steel Cutting Capacity	22-gauge
Blade Material	Forged Alloy Steel

Features

Available Cut Types

- Left-cutting
- Straight-cutting
- Right-cutting

Handle Design	Ergonomic bi-material
