

Shiatsu Deep Kneading Massage Pillow with Heat

This shiatsu massage pillow is designed to relieve muscle tension and promote relaxation through deep kneading. It features four massage nodes that rotate bidirectionally, targeting key pressure points in the neck, back, shoulders, and lumbar region, with an optional heat function for enhanced massage.

Product Overview

Professional Shiatsu Massage Pillow

This versatile shiatsu massage pillow features a unique ergonomic shape and premium environmental PU materials, making it ideal for use at home, in the office, or during travel. Equipped with four high-torque kneading heads, it delivers a deep, soothing massage with an optional heating function to effectively relieve muscle tension and promote circulation. The device offers bidirectional massage rotation and is fully portable, including both a standard AC adapter and a car plug for maximum convenience.

Technical Specifications

Performance Metrics

25 W

Power Consumption

12 V

Input Voltage (DC)

Operating Voltage Range

AC 110V-240V / 50-60Hz

Features & Functionality

Key Features

- 4 strong shiatsu kneading heads
- Integrated heating functionality
- Bidirectional (positive/negative) rotation
- Handhold controller for easy operation
