

Shielded Audio Microphone Cable

This microphone cable is designed for professional audio applications. It features shielded construction for noise reduction and a durable PVC jacket for long-lasting performance.

Product Overview

Professional Audio Connectivity

This high-quality shielded microphone cable is engineered for demanding professional audio applications. It features a robust shielded construction to minimize noise interference, paired with a durable PVC jacket designed for long-lasting performance in studio or stage environments. Its flexible design ensures easy handling and routing, making it an ideal choice for connecting microphones to mixers, amplifiers, and recording devices.

Technical Specifications

Available Models

Model ID	Configuration
HE0404	MONO TUBE (OFC+PVC) 3+4.WIRE
HE0405	STEREO 0.08/26 (OFC+PVC)+COTTON PAPER +TUBE
HE0406	STEREO 0.08/26 (OFC+PVC)+COTTON PAPER +TUBE
HE0407	STEREO 0.08/26 (OFC+PVC)+COTTON PAPER +TUBE
HE0408	STEREO 0.08/26 (OFC+PVC)+COTTON PAPER +TUBE
HE0409	STEREO 0.08/26 (OFC+PVC)+COTTON PAPER +TUBE

Key Features

Core Features	Shielded Construction, PVC Jacket, Flexible Design, Noise Reduction, OFC Conductor
