

Side View Surveillance Dome Camera

This side view dome camera is designed for surveillance applications. It features a durable housing for protection against environmental factors, integrated infrared LEDs for enhanced night vision, and a wide-angle lens for comprehensive coverage.

Product Overview

Ruggedized Side-View Surveillance

The XD-C2R2 is a high-performance dome camera specifically engineered for side-view applications in vehicles and industrial environments. Featuring a robust IP67-rated housing, it ensures reliable operation under extreme temperatures ranging from -30°C to 85°C. With integrated infrared capabilities and a wide 95-degree horizontal viewing angle, this unit provides consistent and clear 720P surveillance coverage in diverse lighting conditions.

Technical Specifications

Key Performance Metrics

720 P Resolution	2.8 mm Lens Focal Length	6 m Max IR Range	16 V Max Voltage
----------------------------	------------------------------------	----------------------------	----------------------------

Imaging Characteristics

Feature	Specification
Sensor	1/2.9 1M Pixel CMOS
SNR	>50dB
Min Illumination	0.01Lux
Video Output	AHD 1.0Vp-p/75©

Environmental & Mechanical

Operational Ratings	IP67, DC 9-16V, 4-pin air connector, Auto White Balance
Temperature Range	-30°C to 85°C
