

Silicon Carbide Abrasive Paper Roll

This silicon carbide abrasive paper features a closed coat and F-paper backing. It is available in grit sizes ranging from P80 to P1000 and is suitable for various sanding and finishing applications.

Product Overview

Professional Abrasive Paper Roll

This high-performance abrasive paper roll is engineered for consistent finishing on a variety of surfaces. Utilizing a durable F-weight paper backing and a resin-over-resin bonding system, it offers excellent heat resistance and longevity for demanding B2B applications. Available in a wide range of grits from P80 to P1000, this product is suitable for both roll and belt conversion, making it a versatile solution for industrial sanding and surface preparation.

Technical Specifications

Product Code	PC133F
Backing Material	F-weight paper
Bonding System	Resin over Resin (R/R)
Abrasive Grain	Silicon Carbide
Standard Width	1650 mm

Available Options

Form Factors

Roll • Belt

Available Grit Range	P80, P100, P120, P150, P180, P220, P240, P280, P320, P400, P500, P600, P800, P1000
