

Single-Cylinder Four-Stroke Engine for Small Vehicles

This single-cylinder, four-stroke engine is designed for small vehicles. Its compact design features a lightweight and durable aluminum alloy casing.

Overview

Compact Power Solution

This single-cylinder, four-stroke engine is engineered for reliable performance in small vehicle applications. Featuring a lightweight aluminum alloy casing and an air-cooled design with a finned cylinder head, it balances durability with efficient heat dissipation. The unit comes fully equipped with essential components including a starter motor and spark plug, ready for integration.

Technical Specifications

Cooling System

Air-cooled

Engine Type

Single-cylinder, four-stroke

Casing Material

Aluminum alloy

Maintenance & Fluids

Oil Change Schedule

Interval Type	Distance
Initial Change	300 km
Regular Maintenance	Every 1000 km

Oil Capacity

800 ml

Recommended Oil Grade

SE15W-40 or higher

Fuel Requirement

90# or higher grade gasoline
