

Single-Phase Electronic Energy Meter

This single-phase electronic energy meter is designed for measuring electrical energy consumption. It operates at 220V and 50Hz, with a current rating of 5(20)A and a pulse constant of 3200imp/kWh.

Overview

Single-Phase Electronic Energy Meter

This single-phase electronic energy meter is a precision instrument designed for reliable electrical energy measurement. It operates on a standard 220V, 50Hz supply and is engineered for accuracy in residential or light commercial applications. Featuring built-in infrared communication capabilities, it facilitates efficient data collection and monitoring for energy management systems.

Technical Specifications

Rated Voltage	220 V
Rated Frequency	50 Hz
Current Rating	5(20)A
Pulse Constant	3200 imp/kWh

Features

Communication	Infrared
---------------	----------

Compliance & Identification

Standards Compliance

GB/T17215-2002

Model Information

Attribute	Value
Model	DDS160
Manufacturing Year	2009
Serial Number	2633788 LH1C
