

Single Pole Toggle Switch

This single-pole toggle switch features a durable metal mounting strap and a thermoplastic body. It is designed for residential and commercial lighting control applications with included mounting hardware for standard electrical box installation.

Product Overview

Professional Grade Lighting Control

This single-pole toggle switch is engineered for robust performance in both residential and commercial electrical systems. Constructed with a durable thermoplastic body and a reinforced metal mounting strap, it ensures long-term reliability. The unit supports versatile voltage requirements ranging from 120V to 277V AC, making it suitable for a wide range of lighting control applications.
