

Slider Type Mobile Phone with Keypad

This slider mobile phone has a compact design and physical keypad. It is equipped with a color display for viewing images and text.

Product Overview

Compact Slider Design

This slider-type mobile phone combines a classic, compact form factor with the reliability of a physical keypad. Designed for users who prioritize simplicity and tactile feedback, it features an intuitive navigation system and a clear color display. It is an ideal solution for basic communication needs, offering a straightforward and dependable mobile experience.
