

Slim Small Form Factor PC Case

This slim PC case is designed for space-saving desktop setups. It features ventilation grills for efficient cooling, a sleek front panel design and durable construction.

Product Overview

Compact Slim Form Factor Case

The S102G is a versatile slim-profile PC case engineered to optimize desk space without compromising on essential performance. Supporting full ATX motherboards and standard ATX power supplies, it offers a surprisingly high level of hardware compatibility for its compact size. Designed with dedicated cooling zones and robust structural integrity, it serves as an ideal solution for streamlined office or professional workstation environments.
