

# Small Agricultural Tractors

These small tractors are designed for a variety of agricultural tasks. They offer efficient power for plowing, planting, and harvesting.

## Overview

### Versatile Small Agricultural Tractors

This series of small agricultural tractors is engineered for efficiency and reliability in farming operations. Available in two distinct series—the 41 series and the 51-81 series—these machines offer a range of engine power outputs from 2.21 to 5.88 kW to suit various agricultural tasks. Designed with compact dimensions and adaptable wheel treads, they provide excellent maneuverability and performance for small-scale land management.

## Technical Specifications

### Performance Metrics

**5.88 kW**

Max Power

**17.85 km/h**

Max Theoretical Speed

**2600 r/min**

Max Rotating Speed

### Model Comparison Table

Model	Engine Power (kW)	Rotating Speed (r/min)	Weight (kg)
R165	2.21	2600	30
R170	2.72	2600	33
R175A	4.41	2600	88
R180	5.15	2600	60
D180	5.88	2400	70

## Design & Dimensions

### Physical Dimensions

- 41 Series Dimensions: 1800 x 840 x 1020 mm
- 51-81 Series Dimensions: 2180 x 890 x 1250 mm

**Wheel Tread Range** 510-1200 mm (depending on model and configuration)

**Available Tire Types** 5.00-12, 6.00-12
