

Smart Android TV Box with 4GB RAM

This smart Android TV box is designed for streaming and media playback on televisions. It features a RK3066 processor, 4GB RAM and various ports for connectivity.

Overview

Compact Media Solution

This Mini PC Box transforms any standard display into a smart Android-powered entertainment hub. Equipped with an RK3066 Dual-core processor and 4GB of storage, it supports Full HD 1080p playback and a wide range of media formats. Its compact, lightweight design makes it an ideal solution for discreet installation behind televisions or monitors.
