Product Overview

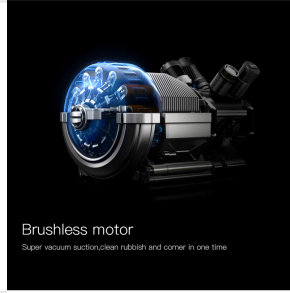

Built-in HD camera for video communication and home security.

Smart All-in-One Cleaning Solution

This advanced robot vacuum cleaner integrates sweeping, vacuuming, and mopping into one seamless device. Featuring ESLAM mapping and GYRO navigation, it provides intelligent coverage for homes between 120 and 160 square meters. With a built-in HD camera and motion detection, it serves as both a powerful cleaning tool and a home safety monitoring system.

Performance Metrics

High-performance brushless motor delivers powerful suction for deep cleaning.

Core Performance

2500 Pa

Suction Power

160 min

Max Runtime

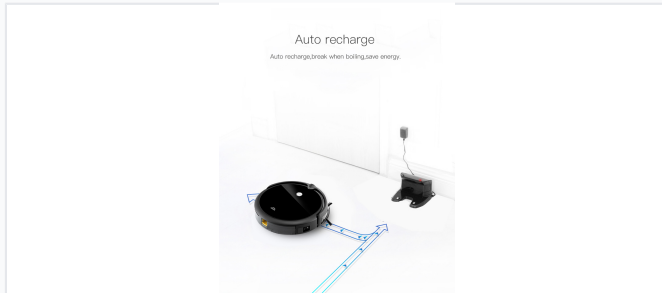

2600 mAh

Battery Capacity

AI Navigation Metrics

Metric	Value
Environment Detection	25ms
Posture Adjustment	10ms
Map Construction Capacity	280m ²

Technical Specifications

Automatic return to charging station ensures the robot is always ready.

Low-noise operation designed for a peaceful home environment.

Navigation & Safety

- ESLAM mapping
- GYRO navigation
- Anti-falling sensors
- Anti-collision system
- Anti-tangling technology
- Automatic recharge

Smart Capabilities

TUYA Smart App, Alexa Compatible, Google Home Compatible, Voice Control, Video Communication, Schedule Cleaning
