

SMT Feeder Cutter Base for Component Placement

Cutter base designed as a spare part for SMT feeders. It ensures accurate and reliable component cutting and placement during PCB assembly.

Product Overview

Precision Cutter Base for SMT Feeders

This precision-engineered cutter base is a critical spare part designed for SMT (Surface Mount Technology) feeder systems. It is engineered to facilitate accurate and reliable component cutting and positioning during high-speed PCB assembly processes. Built to meet rigorous standards, it ensures seamless integration and optimal performance within automated assembly lines.

Technical Details

Part Number	0988A81C
Component Type	Cutter Base (M)
Application	SMT Assembly, PCB Manufacturing, Component Placement

Service & Logistics

Supported Shipping

- EMS
- UPS
- DHL
- TNT
- Hong Kong Post

Typical Lead Time	1-2 days for standard parts
Payment Terms	100% T/T before shipment
