

# SMT Feeder for Samsung CP45FV Placement Machine

This SMT feeder is designed for use with Samsung CP45FV placement machines. It is configured for 1206 components with dimensions of CP8\*4mm.

## Product Overview

### High-Precision SMT Feeder

This SMT feeder is engineered for optimal compatibility with CP series placement machines. Designed to support high-speed assembly, it offers reliable component handling for various tape widths. Available in both original new and verified used conditions, this feeder ensures cost-effective performance for demanding production environments.

## Compatibility

Supported Machines	CP45FV, CP45, CP30, CP60, CP40
--------------------	--------------------------------

## Technical Specifications

### Available Feed Sizes

- 8x2mm
- 8x4mm
- 12mm
- 16mm
- 24mm
- 32mm
- 44mm
- 56mm

## Quality and Condition

### Condition Options

Original New • Original Used

Quality Assurance	Yes
