

SMT Pick and Place Machine Nozzle

This precision-engineered nozzle is designed for accurate component placement in SMT assembly. It ensures optimal performance and compatibility with SMT equipment, contributing to enhanced production efficiency.

Product Overview

Precision SMT Nozzle Series

This series of high-precision pick-up nozzles is engineered for optimal performance in automated SMT assembly processes. Designed for reliability and accuracy, these components facilitate efficient component placement in high-volume electronic manufacturing environments. The range includes various tip sizes and configurations, including standard pick-up and dark point options, to accommodate diverse component handling requirements.

Compatibility & Usage

Application	SMT Assembly, Pick and Place, Electronic Manufacturing
-------------	--

Available Models

Part Reference Table

Part Number	Description
AGPH-9560	CP3/S PICK UP NOZZLE 0.7
AGPH-9410	CP3/S PICK UP NOZZLE 1.0
AGPH-9130	CP3/S PICK UP NOZZLE 1.3
AGPH-9050	CP3/S PICK UP NOZZLE 1.3(MELF)
AGPH-9470	CP3/L PICK UP NOZZLE 1.3
AGPH-9060	CP3/L PICK UP NOZZLE 2.5
AGPH-9430	CP3/L PICK UP NOZZLE 3.4
AGPH-9460	CP3/L PICK UP NOZZLE 1.3(MELF)
AGPH-9570	CP3/DPT-S DARK POINT 0.7/11.5
AGPH-9550	CP3/DPT-S DARK POINT 1.0/11.5
AGPH-9190	CP3/DPT-S DARK POINT 1.3/11.5
AGPH-9200	CP3/DPT-S DARK POINT 2.5/16.5
AGPH-9440	CP3/DPT-S DARK POINT 3.4/16.5
