

# SMT Pick and Place Nozzle for Juki KE2010-2080

This nozzle is designed for use in Juki KE2010-2080 SMT placement machines. It facilitates secure component gripping and precise placement onto PCBs.

## Product Overview

### Precision SMT Nozzle for KE2010-2080 Series

This high-precision pick and place nozzle is engineered for compatibility with KE2010-2080 series SMT placement machines. Designed to ensure reliable component handling and consistent placement accuracy, it is a critical component for maintaining high-speed electronic assembly throughput. The assembly includes various configurations of nozzle tips and sliders to support diverse production requirements.

## Compatibility & Parts

### Compatible Components

- E3605-729-0A0 (506 ASSY)
- E3606-729-0A0 (507 ASSY)
- 508 NOZZLE ASSY
- 500 TIP ONLY/NOZZLE SLIDER
- E3654-729-000 (502 TIP ONLY/NOZZLE SLIDER)
- E3655-729-000 (503 TIP ONLY/NOZZLE SLIDER)
- E3656-729-000 (504 TIP ONLY/NOZZLE SLIDER/NO REFLECTOR)
- MISC002-G-13533 (507 TIP ONLY/NOZZLE SLIDER)

## Technical Details

### Inner Pin Lengths

**6.3 mm**

505-508 Series

**4.5 mm**

500-504 Series

### Usage Notes

Not compatible with original nozzle body
