

Socket and Screwdriver L-Wrench Set

This set features three L-shaped wrenches with socket ends and flathead screwdriver ends. Made of chrome vanadium steel, the wrenches are durable and have a polished finish.

Product Overview

Professional L-Wrench Set

This versatile L-wrench set is designed for heavy-duty applications, featuring a combination of socket and screwdriver ends. With a length ranging from 300mm to 320mm, these tools provide excellent leverage for demanding tasks. Constructed for durability, the set is available in painted, galvanized, or chrome-plated finishes to suit various environmental requirements.
