Product Overview

Versatile Solar Lighting

The solar-powered LED lantern is designed for both indoor and outdoor use, featuring a robust and durable ABS housing that is impact-resistant. It provides 360-degree illumination with dual brightness settings to optimize energy efficiency. With dual-charging capabilities via solar panel or micro-USB, it serves as a reliable lighting solution for various environments.

Technical Specifications

Lighting Performance

360 degrees

Illumination Angle

10000 hours

Lifespan

Power Options

- Integrated Solar Panel
- Micro USB AC Adaptor

Durability & Protection

Impact-Resistant, Moisture Protection PCB, Light Rain Resistant, Rugged ABS Housing

Warranty Coverage

2 years

Usage & Handling

Usage Modes

- Hand-held
- Ceiling hanging
- Wall mount
- Surface placement
