

Solenoid Valve for SMT Machines

This solenoid valve is designed for use in SMT (Surface Mount Technology) machines. It is a critical component in the precise control of pneumatic systems within the SMT equipment.

Product Overview

High-Precision Solenoid Valve for SMT Assembly

This original, new solenoid valve is engineered specifically for YV series SMT placement machines. Designed for critical pneumatic control, it ensures accurate and reliable operation during high-speed component placement processes. Built to rigorous industrial standards, this component is essential for maintaining the performance and longevity of your SMT equipment.

Compatibility

Compatible Part Numbers

Part Number	Associated Model
KM1-M7163-30X	O10E1-44W
KM1-M7163-20X	A010E1-37W
KM1-M7163-21X	A010E1-54W
KGA-M7111-H0X	A041E1-48W 88X
KM5-M7174-11X	AME05-E2-PSL-13W
KV7-M7111-B0X	A041E1-11-48W
KM1-M7162-20X	A010E1-35W
KV8-M7162-20X	A010E1-55W
KV8-M7162-10X	A040-4E1-56W
KV8-M71YA-00X	A010E1-56W (48W)
KM1-M7162-11X	A040-4E1-54W
KU0-M3410-41X	A010E1-32W
KGA-M37P1-00X	G010HE1-5W
KV5-M7121-L0X	A040-4E1-50W
KV5-M7121-R0X	A040-4E1-50W
KH2-M7101-00X	A040-4E1-3W
