

Soundproof Diesel Power Generator

This soundproof diesel generator is engineered for reliable power generation with minimal noise. It features a robust diesel engine, a control panel with a digital display, and safety features like overload protection.

Overview

Reliable Power Generation

This air-cooled diesel generator is engineered for consistent and dependable performance across residential, commercial, and industrial settings. Designed with advanced soundproofing technology, it ensures reliable power output while maintaining minimal noise levels during operation. The unit is equipped with a comprehensive digital control panel and essential safety mechanisms, including overload protection, to guarantee safe and efficient power delivery.

Technical Specifications

Cooling Type	Air-Cooled
Frequency	50 Hz

Key Features

Ideal Applications

Residential • Commercial • Industrial

Standard Features

Soundproof, Overload Protection, Digital Display
