

Split-Type Air Conditioner with Remote Control

This split-type air conditioning system consists of an indoor and outdoor unit. It includes a remote control for convenient operation.

Product Overview

Advanced Climate Control

This split-type air conditioning system provides a comprehensive cooling and heating solution for residential or commercial spaces. The system includes a sleek, wall-mounted indoor unit designed for quiet operation and an efficient outdoor compressor unit. With the included remote control, users can easily manage temperature settings and airflow from anywhere in the room.
