

Spotgun Injector System for Car AC Repairs

This injector system is designed for efficient and precise injection of refrigerants and additives into car AC systems. Pull the trigger to inject a precise amount of oil into the A/C system.

Product Overview

Professional AC Injection System

The Spotgun Injector System is designed for the efficient and precise injection of refrigerants, oils, and additives into automotive air conditioning systems. This comprehensive kit features a robust injection gun with a transparent reservoir, allowing for easy monitoring of fluid levels during operation. Engineered for versatility, it includes multiple adapters and hose configurations to ensure compatibility with various AC service ports, making it an essential tool for automotive maintenance, leak detection, and system treatment.

Technical Specifications

Oil Cartridge Capacity	180 ML
Hose Length	12 CM

Compatibility & Connections

Kit Contents

- 12CM Hose
- Low side coupler with 1/4" flare
- Adapter 1/4" SAE M * 1/2" F
- Anti-blow valve
- 180ML Oil cartridge

Included Hoses	1/2" SAE, 1/4" SAE
