Product Overview

Professional Sprayer Maintenance Solutions

This comprehensive range of replacement parts is engineered for both manual and battery-operated sprayers, ensuring your equipment remains operational and efficient. Designed for agricultural, gardening, and plant protection applications, these components facilitate precise liquid application and versatile spray patterns. Built from durable materials like brass, stainless steel, and high-grade plastics, these parts offer excellent chemical resistance and longevity in demanding environments.

Component Details

Part Reference Codes

Category	Reference Codes
Nozzles & Connectors	PT101, PT103, PT104, PT105, PT106, PT107, PT109, PT110, PT111
Advanced Adapters	PT112, PT113, PT117, PT114, PT115, PT118, PT120, PT121, PT119
Wands & Extensions	PG100, PG200(A), PG201, PG202, PG206, PG400, PG600, PG601

Available Parts

Spray Lance Handles, Shut-off Valves, Nozzles, Protection Hoods, Wands, Extensions, Connectors, Adapters

Material Specifications

Construction Materials

- Brass (Nozzles)
- Stainless Steel (Wands/Extensions)
- Durable Plastic (Connectors/Hoods/General)

Application Suitability

Agriculture • Gardening • Plant Protection • Chemical Resistant
