Product Overview

Ergonomic Tool Suspension

The Spring Tool Balancer is designed to enhance workplace efficiency by reducing operator fatigue and preventing repetitive strain injuries. By suspending tools in a neutral position, it ensures they are always within reach while protecting equipment from accidental drops or damage. Its robust, lightweight aluminum construction makes it an ideal solution for assembly lines and demanding industrial workshops.

Technical Specifications

Capacity Range

- 0.5kg - 1.5kg
- 0.6kg - 2.0kg
- 1.2kg - 2.0kg
- 1.0kg - 3.0kg
- 1.5kg - 3.5kg
- 3.0kg - 5.0kg

Body Material

Lightweight Aluminum

Key Features

Adjustable Tension, Ergonomic Design, Durable Construction, Compact Size

Compatible Tools

Pneumatic Tools, Electric Tools
