

Square Box Fan with Control Knobs

This square box fan provides focused air circulation for personal cooling. It features dual control knobs for adjusting the fan speed.

Product Overview

Compact Ventilation Solution

The KYT-30 Square Box Fan is a versatile cooling and ventilation unit designed for professional environments. Its robust square housing and protective circular grill ensure reliable airflow while maintaining a compact footprint. Integrated control knobs provide intuitive adjustments for end-users, making it an ideal choice for localized climate control.
