

Square Grill Exhaust Fan

This exhaust fan is designed for household ventilation. It features a square grill and connects to a duct for air extraction, suitable for removing odors and moisture.

Product Overview

Professional Ventilation Solution

This square grill exhaust fan is an efficient solution designed for residential ventilation requirements. Constructed with high-quality, durable plastic, it ensures long-lasting performance in environments such as bathrooms and kitchens. The unit effectively circulates air to remove unwanted odors and humidity, maintaining a comfortable and clean indoor atmosphere.
