

Square Head Steel Shovel with D-Grip Handle

This square head shovel is designed for digging, scooping, and moving materials. It features a durable steel blade and a comfortable D-grip handle.

Product Overview

Professional Square Head Shovel

This durable square head shovel is designed for versatile use in gardening, landscaping, and construction environments. It features a robust powder-painted steel head with a 1.6mm thickness, ensuring reliable performance when scooping or moving materials. The A-Class hardwood handle is equipped with an ergonomic D-grip, specifically designed to reduce user fatigue during extended professional tasks.
