Product Overview

High-Performance Square LED Truck Light

This robust LED truck light is engineered for demanding automotive and industrial applications, offering superior durability and thermal management. With a high-output design, it features dedicated low and high beam settings to ensure optimal visibility and distance projection. The construction integrates advanced materials including an aluminum housing and a PMMA lens to withstand extreme environmental conditions.

Technical Specifications

Beam Performance

31 W Low Beam Power	1500 lm Low Beam Flux	42 W High Beam Power	1800 lm High Beam Flux
-------------------------------	---------------------------------	--------------------------------	----------------------------------

Operating Voltage: DC 12-36V

Color Temperature: 6500 K

Expected Lifespan: 50000 hours

Physical Dimensions & Build

Dimensions: 197 * 140 * 72 mm

Material Composition: Aluminum Housing, PC Cover, PMMA Lens

Environmental & Installation

Ingress Protection
IP67

Temperature Range -40 to 80 °C

Mounting Type Bracket

Logistics

Packaging Specification 8 PCS per Carton (4 Color Boxes)
