

Square Ventilation Exhaust Fan

This square exhaust fan is designed for ventilation purposes. It features a white plastic housing, a circular grille, and a duct connector for venting air outside.

Overview

Efficient Air Ventilation Solution

This square-shaped electrical exhaust fan is engineered to provide reliable ventilation in residential or commercial spaces. Featuring a durable white plastic housing and a protective circular grille with concentric rings, it is designed to effectively remove moisture and odors from environments like bathrooms and kitchens. The unit includes an integrated duct connector for seamless installation and efficient air extraction.

Technical Specifications

Shape	Square
Housing Material	Plastic
Color	White

Features

Design Features

- Square frame design
- Protective circular grille
- Concentric ring airflow pattern
- Integrated duct connector

Suitable Applications	Bathroom, Kitchen, Residential Ventilation, Moisture Removal
