

Stainless Steel Electric Kettle with Auto Shut-Off

This electric kettle is constructed from stainless steel for durability and rapid boiling. It features an automatic shut-off function and boil-dry protection for enhanced safety.

Overview

Professional Grade Stainless Steel Kettle

This modern 1.7-liter electric kettle features a durable stainless steel construction with a concealed heating element, ensuring both longevity and easy maintenance. Designed for safety and convenience, it includes automatic shut-off and dry-boil protection mechanisms. Its sleek 360-degree rotating base and ergonomic design make it an ideal choice for high-traffic environments.
