

Stainless Steel Electric Kettle with Automatic Shut-Off

This electric kettle is designed for quickly boiling water with efficiency and safety. It features a stainless steel body, concealed heating element, water level indicator, and automatic shut-off function.

Product Overview

Efficient Stainless Steel Kettle

This modern electric kettle is engineered for rapid and efficient water boiling, making it an ideal choice for high-traffic environments. Constructed with a durable stainless steel body, it ensures longevity and ease of maintenance. The unit features a concealed heating element to minimize mineral buildup, while the 360-degree swivel base and cordless design offer superior handling and pouring convenience.
