

Stainless Steel Garden Trowel with Wooden Handle

This garden trowel is made with a stainless steel blade and a wooden handle. It is designed for planting, transplanting, and other gardening tasks.

Product Overview

Professional Gardening Utility

This durable garden trowel is engineered for efficiency in planting, transplanting, and general soil cultivation tasks. Featuring a high-quality stainless steel head and a premium A-Class hardwood handle, it offers both resilience against corrosion and a comfortable, ergonomic grip. Its pointed blade design ensures easy soil penetration, making it an essential tool for landscaping and horticulture professionals.
