

Stainless Steel Oval Muffler with Angle Tip

This muffler is constructed from stainless steel and features an oval body. It has an angled tip, with dimensions including a 58mm (2 1/4") inlet diameter and a 177.8mm x 111.8mm (7" x 0.4 2/5") outlet diameter.

Product Overview

High-Performance Stainless Steel Oval Muffler

This stainless steel oval muffler is engineered for durability and efficient exhaust flow, featuring a distinct angle tip design. Its robust construction ensures long-lasting performance in various automotive applications. The unit is designed for precise fitment with a 58mm inlet diameter, making it an ideal choice for professional exhaust system upgrades.

Technical Specifications

Inlet Diameter	58 mm
Body Dimensions	220mm x 127mm x 205mm
Outlet Dimensions	177.8mm x 111.8mm
Material	Stainless Steel
Part Number	NDOM004
