Product Overview

High-Efficiency Submersible Sewage Pump

This professional-grade submersible sewage pump is engineered from high-quality AISI 304 or 316L stainless steel for maximum corrosion resistance in demanding environments. Featuring an advanced integrated cutting system, it effectively minces long fibers and solids to prevent clogging and ensure consistent flow. This reliable solution is ideal for residential and commercial applications requiring efficient discharge of sewage and domestic wastewater.

Performance Metrics

Key Performance Indicators

14 m³/h

Max Capacity

15 m

Max Head

1.5 KW

Output Power

65 mm

Discharge Size

Technical Specifications

Detailed Technical Data

Feature	Details
Model	WQG5-10-2.2KW
Output Power	1.5KW (2HP)
Materials	AISI 304 or 316L
Net Weight	33 KGS
Gross Weight	34 KGS
Packing Size	225*265*550 mm

Supported Voltage/Frequency

220V/50Hz, 115V/60Hz, 380V/60Hz, 127V/60Hz
