

Stainless Steel Weld Neck Flange

This weld neck flange is available in sizes from 1/2 inch to 80 inches. It is made from high-quality stainless steel, providing excellent corrosion resistance and a strong, leak-proof connection when welded to pipes.

Product Overview

Industrial Grade Weld Neck Flange

This high-quality stainless steel weld neck flange is engineered for reliable connections in demanding industrial piping systems. Its signature weld neck design facilitates direct welding to pipes, ensuring structural integrity and a leak-proof performance. Built for versatility and resilience, it is an essential component for high-pressure and high-temperature environments across various sectors.

Technical Specifications

Material	Stainless Steel
Face Type	Raised Face
Connection Design	Weld Neck

Performance Features

Key Attributes	Corrosion Resistant, High Pressure Rated, High Temperature Resistant, Leak-proof
----------------	--

Industry Applications

Suitable Industries

- Plumbing
- Oil and Gas
- Chemical Processing
