

Stainless Steel Whistling Kettle with Infuser

This whistling kettle is made of stainless steel and has a broad base and curved spout. It includes a heat-resistant handle and a removable infuser basket for brewing tea.

Product Overview

Professional Grade Whistling Kettle

This durable stainless steel whistling kettle is designed for efficiency and convenience in any professional or commercial kitchen environment. It features a specialized ring pot design that ensures rapid heat distribution across various stovetop types. With an integrated removable infuser, it allows for versatile brewing capabilities while maintaining the classic audible boiling alert.
