

Stainless Steel Wire Rope Cable

This wire rope is made from AISI 304 and AISI 316 stainless steel. It is available in constructions including 1X7, 1X19, 7X7, and 7X19 with a diameter range of 0.3mm-32mm.

Product Overview

Industrial Stainless Steel Wire Rope

This high-performance stainless steel wire rope is designed for demanding industrial applications requiring superior strength and longevity. Available in a wide range of constructions and diameters, it offers excellent corrosion resistance and durability in challenging environments. It is manufactured to meet rigorous international standards, making it a reliable choice for rigging, construction, and metallurgical hardware needs.

Technical Specifications

Tensile Strength Options

- 1570
- 1670
- 1770

Surface Treatment

Bright • Annealed • Electro polished

Material Grade

AISI 304, AISI 316, AISI 304L, AISI 316L, Non-magnetic

Diameter Range

0.3mm to 32mm

Compliance and Standards

Certified Standards

AISI, ASTM, DIN, EN12385-4, BS, GB, JIS

HS Code

7312100000

Construction and Logistics

Available Constructions

- 1X7
- 1X19
- 7X7
- 7X19
- 6X7+FC/IWS
- 6X19+FC/IWRC/IWSC
- 19X7
- 6X37+FC/IWRC
- 6X36WS+FC/IWRC

Lay Direction

R.H.O.L and L.H.O.L

Packaging

Plywood reels, plastic spools or per customer requirement

Application

Recommended Applications

Rigging, Construction, Aircraft, Metallurgy, Hardware
