

Standing Pedestal Fan with Adjustable Height

This standing fan features a protective grill and multiple blades for optimal air circulation. Its height-adjustable pole and weighted base make it suitable for providing cooling and ventilation in various indoor settings.

Product Overview

High-Performance Cooling Solution

This standing pedestal fan is engineered for effective indoor air circulation and cooling. Featuring an adjustable height pole and a stable, weighted base, it offers versatile placement options for various commercial or office environments. Its robust design, including a protective grill and multi-blade head, ensures safety and consistent performance for daily ventilation needs.

Physical Attributes

Base Design	Weighted circular base for enhanced stability
Height Adjustment	Yes

Design & Safety

Application	Indoor Use • Ventilation • Cooling
Safety Features	Protective Grill, Weighted Base
