

Static Cling Car Window Sunshades - 2-Piece Set

These static cling sunshades protect car interiors from sun damage and reduce heat. The sunshades easily attach to side windows without suction cups or adhesives and are sold as a set of two.

Product Overview

Professional Vehicle Interior Protection

These static cling side window sunshades offer an efficient way to protect vehicle interiors from harmful sun damage while significantly reducing cabin heat. Designed for convenience, the static cling technology ensures easy application and removal without requiring messy adhesives or suction cups. This two-piece set provides reliable shade for passengers, making it an essential accessory for professional vehicle maintenance and comfort.
