Overview

Professional Steam Ironing Center

This all-in-one steam ironing center integrates a high-performance steam generator with a versatile ironing board to streamline garment care. Featuring a powerful 2150W system with 5.0 bar pressure, it delivers efficient, continuous steam for up to 40 minutes, making it ideal for professional and home use. The unit includes advanced features such as an integrated fan for suction and blowing, adjustable height settings, and a ceramic-coated soleplate for superior fabric protection.
