Product Overview

Industrial Rebar Processing Solution

This fully automatic CNC steel bar straightening and cutting machine is engineered for high-precision processing in construction and metalworking environments. It features a robust design with integrated straightening rollers and a powerful cutting mechanism to ensure consistent results across various bar diameters. Mounted on a mobile base, this equipment offers high efficiency and operational flexibility for professional industrial applications.

Technical Specifications

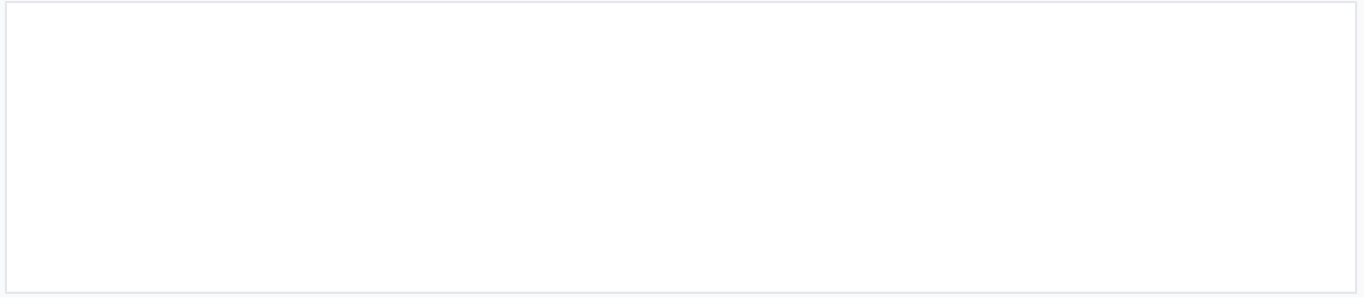

Motor Power

26 kW
Power

380 V
Voltage

Model	GTQ 4-14
Working Capacity	4-14mm
Power Phase	3 phase

Dimensions and Weight

Net Weight	1250 kgs
Dimensions (L*W*H)	2500*800*1000mm

Commercial Terms

Accepted Payment Methods	T/T, Western Union
Minimum Order Quantity	1
Warranty Period	2 years
