Steel Pickaxe Head with Pick and Chisel Ends

This heavy-duty pickaxe head is forged from durable steel and finished with a green coating. It features a central eye for handle insertion and two opposing ends: a pointed pick for breaking up hard surfaces and a chisel end for prying and digging.

Product Overview

Heavy-Duty Steel Pickaxe Head

This professional-grade pickaxe head is forged from durable steel, designed to withstand rigorous use in demanding environments. Featuring a dual-end design with a pointed pick for breaking hard surfaces and a chisel end for prying and digging, it offers versatile functionality. The central eye is precision-engineered for secure handle insertion, making it an essential tool for gardening, heavy landscaping, and construction projects.
