

# Steel Pressure Sprayer with Adjustable Nozzle

This steel pressure sprayer features a durable tank and a pressure gauge for monitoring internal pressure. It includes a spray wand with an adjustable nozzle for controlled dispensing in industrial, agricultural, and home settings.

## Product Overview

### High-Performance Steel Pressure Sprayer

This durable steel pressure sprayer is engineered for versatility across industrial, agricultural, and residential applications. It features a robust tank construction designed for long-term reliability and precise operation. With an integrated pressure gauge and an adjustable spray nozzle, users can maintain complete control over dispensing tasks for consistent, efficient performance.

## Technical Specifications

### Common Applications

- Industrial use
- Agricultural maintenance
- Home and garden tasks

### Usage Environment

Industrial • Agricultural • Residential

<b>Tank Material</b>	Steel
<b>Key Features</b>	Pressure Gauge, Adjustable Nozzle, Manual Pump Mechanism, Spray Wand
